National Center for Environmental Compliance

Subject: Urging the facilities which practices any of the environmental activities to submit a plan to correct the situation.

Within the cooperation between Saudi Ports Authority and the National Center for Environmental Compliance, and following the royal decree No. (M/165) dated (19/11/1441H) which state that anyone who practices any of the environmental activities or activities which have an environmental impact, should correct the situation according to environmental regulations- after issuance- within a period not exceeding (3) years from expiration, and to submit a plan to the concerned center within a deadline of (9) months from the issuing date of the regulation. (M/32) dated 13/4/1443H, which state extending the deadline of (9) months aforementioned to additional (9) months.

Therefore, the Saudi Ports Authority stresses on everyone who practices any of the environmental activities which have environmental impact to submit situation correction plans to the National Center for Environmental Compliance prior to the deadline 2/12/1443H, 1/7/22022, according to the environmental regulations and the rules mentioned.

Approved for implementation as the ports management will follow and monitor compliance and take the regulatory procedures on violators.

Saudi Ports Authority
